

Forward Looking Statements

The information on this web site may contain certain “forward-looking statements.” Forward-looking statements are based on current expectations and assumptions and are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, and many of which are beyond the Company’s control. Actual results could differ materially from these forward-looking statements as a result of a number of factors, including the uncertainty of the launch of our commercialization strategy, the biodiesel market’s acceptance for our products and technologies or the acceptance of our customers’ products or technologies which incorporate our products and technologies, the failure of our technology to perform as predicted, competition from alternative biodiesel or other alternative energy technologies, uncertainties as to the size of the markets, cost and margins for the Company’s products, current or future government regulations affecting the use of the Company’s products and technologies, the lack of availability of critical components, the degree of protection from future patents, other risks associated with the development or acquisition of new products or technologies and those risks detailed in the Company’s filings with the SEC. Given these risks and uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and no assurances can be given that such statements will be achieved. The Company and all affiliated parties do not assume any duty to publicly update or revise the material contained herein. No representations or warranties are made as to the accuracy or reasonableness any forward-looking statements or the assumptions on which such forward-looking statements are based.
